

NSWI015

Unix/Linux

Programming

in C

Mgr. Vladimír Kotal, Principal Software Engineer, Oracle

Mgr. Jan Pechanec, Principal Software Engineer, Oracle

<http://mff.devnull.cz>

- **NSWI015, 2/1 (5 credits), SISAL**
- MFF UK, Malá Strana, **winter semester 2018/2019**. Schedule is TBD.
- This course prepares students for developing software in the Unix/Linux environment using the C programming language.
- The course includes laboratory work where all the knowledge gained in the lectures is practiced.
- **Lectured in English** to accomodate non-Czech speaking students.
- As a prerequisite, you are expected to have passed *Introduction to UNIX* (NSWI095) and you should be either able to write in C (e.g. NPRG066) or willing to learn it by yourself.
- Let us know if you have any questions: vlada@devnull.cz, jp@devnull.cz
