

NSWI015

Unix/Linux

Programming

in C

Mgr. Vladimír Kotal, Oracle

Mgr. Jan Pechanec, Oracle

<http://mff.devnull.cz>

- **NSWI015, 2/1 (5 credits), SISAL**
- MFF UK, Malá Strana, **winter semester** 2019/2020. **Tentative** schedule is Wed, 10:40 in S9 (subject to change until the schedule is finalized).
- This course prepares students for developing software in the Unix/Linux environment using the C programming language.
- The course includes laboratory work to practise the knowledge gained in the lectures. **Tentative** schedule is Wed, 9:00 in SU1.
- **Lectured in English** to accomodate non-Czech speaking students.
- You are expected to have passed *Introduction to UNIX* (NSWI095) and you should either know C (e.g. NPRG066) or willing to learn it by yourself.
- Let us know if you have any questions: vlada@devnull.cz, jp@devnull.cz
